What kinds of organizations are using Ithaca Carshare?

Small businesses such as **Mimi's Attic**, **Snug Planet**, and **Home Green Home** find our *Just in Case* plan perfect to occasionally deliver furniture, or fill in as a back up vehicle if the work van is already out. As downtown businesses, a free personal membership is a great "backup" benefit to offer as part of a commuter package for staff who don't want to park a car downtown everyday.

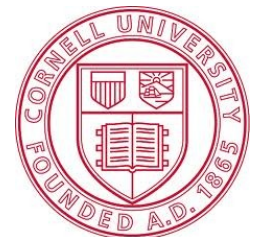

Palmer Pharmacy and **Positive News Newspaper** use our cars regularly for delivery routes, and find *It's My Car* the best option for routine trips. Pharmacist Shelly Rogers uses the Green Street car daily to deliver prescriptions to private residences, group homes, and offices. The **Ithaca League of Women Rollers** uses our mini-van to travel to away games.

Trowbridge and Wolfe Landscape Architects use the cars for trips to work sites around Tompkins County. "I can easily walk to cars for out-of-town site visits and meetings", says staff member Noah Demarest. "Since our mileage is reimbursed by our clients, it is essentially a free car service for us."

Cornell University West Campus Housing rotates staff drivers through their *It's My Car* account each semester, which they can use for errands to pick up program supplies, or to transport program participants. The **Cornell Center for Materials Research** finds our Honda Fit at Central Campus perfect for quick errands and meetings, since it is conveniently parked just outside the door to their building.

Our low *It's My Car* rates for governmental agencies and non-profit agencies are a great deal, and Ithaca Carshare helps the **Greater Ithaca Activities Center**, **Cornell Cooperative Extension**, and the **Ithaca Tompkins Transportation Council** have access to back-up vehicles when they need them.
